

# GT8

Our strippable double compressible  
layer blanket construction for highest  
UV application

Printing blankets

Made by Continental

Printing blankets

Made by Continental

GT8

- Innovative double compressible layer construction supports minimizing press shock streaks
- Superior printing quality in terms of round dot shapes, good solid laydown and highest contrast values
- Excellent resistance against edge marking, ideal for frequent changes of substrates and format sizes

Applications		
	Sheet-fed offset HQ	★★★ UV
	Packaging	★★★ UV
	Metal decoration	★★★ UV
	Waterless printing WLO	
	UV printing	★★★ UV
	Hybrid: conv. + UV	
	Waterbased varnishes H <sub>2</sub> O	
	UV varnishes	
	Newspaper printing	
	Heatset printing	
	Label printing	★★★ UV
	Business form	★★★ UV

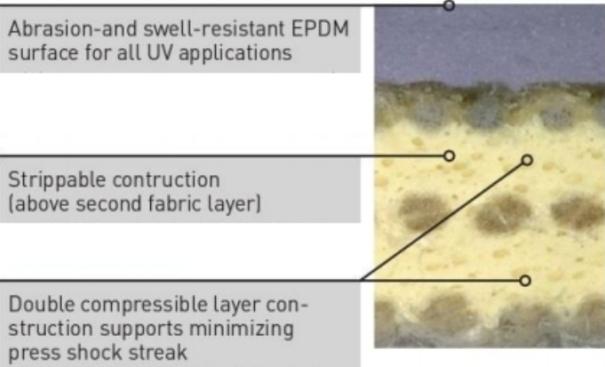

★★★ Excellent

★★ Good

\* Suitable

## Product attributes

Colour	Violet
Identification	Product name & Made by Continental, batch-No.
Thickness	1.96 mm / 0.077"

## Technical specification

Compressibility at 1,350 kPa	approx. 12%
Hardness total	approx. 78 Shore A
Surface rubber	approx. 58 Shore A
Roughness R <sub>z</sub>	5 µm (fineground)
